## Notes

- (<sup>1</sup>) Monthly maturity breakdown applicable only to loans to other resident sectors than MFIs and general government of the participating Member States and the monthly maturity breakdown at one year, for loans to the rest of the world. Quarterly maturity breakdowns for loans to general government other than central government of the participating Member States.
- (<sup>2</sup>) Monthly maturity breakdown relates only to holdings of securities issued by MFIs located in the participating Member States. As quarterly data, holdings of securities issued by non-MFIs in the participating Member States are split into 'up to one year' and 'over one year'.
- (<sup>3</sup>) Vis-à-vis the rest of the world only.
- (<sup>4</sup>) Including suspense balances representing amounts stored on prepaid cards issued in the name of MFIs and other liabilities resulting from the issuance of electronic money.
- (<sup>5</sup>) Including administratively regulated deposits.
- (<sup>6</sup>) Including non-transferable sight deposits.
- (<sup>7</sup>) Other financial intermediaries (S. 123) + financial auxiliaries (S. 124)
- (<sup>8</sup>) Households (S. 14) + non-profit institutions serving households (S. 15).
- (<sup>9</sup>) The reporting of the item 'deposits redeemable at notice over two years' is voluntary until further notice.
- (<sup>10</sup>) Monthly breakdown by subsector is required for loans and deposits.

**General note:**

Cells marked with an \* are used in the calculation of the reserve base. With respect to debt securities, credit institutions will either present proof of liabilities to be excluded from the reserve base or apply a standardised deduction of a fixed percentage specified by the ECB.

## Notes

- (1) Including administratively regulated deposits.
- (2) Including non transferable sight savings deposits.
- (3) Credit institutions may report positions vis-à-vis 'MFIs other than credit institutions subject to minimum reserves, ECB and NCBs' rather than vis-à-vis 'MFIs' and 'credit institutions subject to minimum reserves, ECB and NCBs', provided that no loss of detail is implied and no bold printed positions are affected.
- (4) The reporting of this item is voluntary until further notice.
- (5) Depending on the national collection systems and without prejudice to full compliance with the definitions and classification principles of the MFI balance sheet set out in this Regulation, credit institutions subject to reserve requirements may alternatively report the data necessary to calculate the reserve base (cells marked with an \*), except those on negotiable instruments, in accordance with the table below, provided that no bold printed positions are affected. In this table, strict correspondence with Table 1 must be ensured as described below.

	Reserve base (excluding negotiable instruments), calculated as the sum of the following columns in Table 1 (Liabilities): (a) - (b) + (c) + (d) + (e) + (j) - (k) + (l) + (m) + (n) + (s)

**General note:** Series marked with the word 'MINIMUM' are reported by MFIs. NCBs may extend this requirement also to cover the series marked as blank cells (i.e. not containing the word 'MINIMUM').  
Blank cells and MINIMUM cells are reported by the NCB to the ECB. The blank cells with a star on the liability side are assumed to be zero unless there is evidence to the contrary.
