Explanatory notes to the ČKPS Directory

C	Change – indicates a change in the data compared to the previous version of the ČKPS Directory. + newly added payment service provider or change of payment system provider’s data.
Payment system code	Code number assigned to a payment service provider by the Czech National Bank in accordance with Article 6 of Decree No. 169/2011 Coll. on the rules for the creation of account numbers for making payments. The code is used when creating the account number in national format and in IBAN format and is used for unique identification of the account. The code is also used when performing domestic interbank payments (the CERTIS system) or for other purposes stated in the Rules for the Issuance and Administration of the Directory of Payment System Codes in the Czech Republic.
Payment service provider	Designation of payment service provider
BIC code (SWIFT)	BIC (Bank Identifier Code) – payment service provider’s SWIFT address – code assigned to payment service provider by SWIFT (not used in CERTIS). BIC stated in the ČKPS Directory is important for routing of SEPA payments from EU countries to the Czech Republic where payer doesn’t have to state the BIC of the payee’s bank, because the payee’s account number in IBAN format is sufficient for the identification of the payee’s bank. The payment system code of the bank is included in IBAN, so the payer’s bank can derive the BIC of the payee’s bank from the ČKPS Directory. The ČKPS Directory contains only BIC codes that the payment service provider concerned submitted to the CNB for publication.
CERTIS System	Information on participation in CERTIS (https://www.cnb.cz/en/payments/certis/): A direct participant in CERTIS – CERTIS non-participant

The CNB issues and publishes the ČKPS Directory pursuant to the Rules for the Issuance and Administration of the Directory of Payment System Codes in the Czech Republic (ČKPS).
